Battery cabinet far fold

The battery cabinet adopts a modular design and can be flexibly expanded; it is compatible with 320Ah large battery cell design and has higher energy density, and a single cabinet can be expanded to 393kWh; safety designs such as water and electricity separation, three-level fire protection + explosion relief + exhaust, comprehensively protect the safety of the system ; High-efficiency liquid cooling + intelligent device humidity control design can significantly reduce the dew point temperature in the cabinet, extend the system cycle life, and reduce life cycle electricity costs.
