Rooftop solar lights for home use

The Pros and Cons of Solar Tubes () | Today's Fewer Options For Control Offer Little Design Improvement Not Equally Suited to Every Home The type of roof you have might make it impractical to install solar tubes. Most solar tubes are designed for roofs with a slope between 15 and 60 degrees. If you have a flat roof, you'll need to look for tubular skylight models specifically designed for this type of roof. On a steeply pitched roof, such as an A-frame, installation might not be possible.
