Solar Booster Pumps Ireland

What is a solar powered water pump? Solar powered water pump designed and manufactured in Ireland. Comes fully enclosed in a steel housing with a PV panel as the lid and is fully pressure regulated. The SPS SolarFlo35 pumps water up to 1.5km in distance and up an incline of 20m vertical elevation. The system also has the capacity to power a 12V electric fence. How do I use the SPS solar pump? Connect your outlet pipe delivering water to your tanks/troughs. Switch it on. The battery reserve means the pump can operate any time of the day and overnight as it is not powered directly from the solar panel. The SPS solar pump is placed beside the water source (up to 5m above the level of water). Why do farmers need a solar water pump? This has created problems for farmers especially if mains supply does not extend to the area of the farm that the livestock is in. Forcefields Battery Solar Powered Water Pump solves this problem completely. For Best Results use with a new 12V Battery How to choose a solar powered water pump?
